About MIMT

Established in 2002, Mangalmay Institute of Management Technology is one of the premier Institute with a prime focus on innovation, excellence and nurturing

“RESEARCH METHODOLOGY: ART OF WRITING RESEARCH PAPER”

In today's academic and professional context, the capacity to conduct high-quality research and effectively convey results via research papers is critical. This FDP is intended to provide learners with the information, abilities, and techniques necessary to succeed at the art of writing research papers.

The primary objective of this FDP is to enhance participants' understanding of research methodology and enable them to write well drafted research papers. By the end of the program, participants will:

- Gain a thorough understanding of research technique, including various study designs and data collection methods.
- Learn how to conduct an extensive literature analysis, identify research gaps, and develop concise issue descriptions.
- Develop how to use statistical software tools to analyse, interpret, and display data.
- Master the art of academic writing, such as how to structure research papers, properly cite sources, and follow publication guidelines.

Create strategies for identifying relevant journals, managing the peer review process, and expanding the reach of their research articles.

Content	<p>The "Research Methodology: Art of Writing Research Paper" FDP spans five intensive days, offered faculties a holistic journey through the intricacies of conducting high-quality research and effectively communicating findings through research papers. Each day was crafted with a mix of theoretical insights and practical sessions, led by faculties from different departments and Institutes (MGI).</p> <p>In the initial sessions of the FDP, participants are equipped with foundational knowledge, including essentials of research methodology, systematic literature review techniques, and strategies for identifying research gaps. Days two and three delve deeper into the research process, covering topics such as defining research objectives, hypothesis formulation, statistical analysis pathways, and introduction to structured equation modelling using SPSS Amos, providing participants with a robust toolkit for conducting rigorous research.</p> <p>The latter half of the FDP focuses on refining participants' skills in academic writing and publication strategies. Sessions on structuring research papers, citation practices, adhering to publication standards, and navigating the peer review process are complemented by discussions on research metrics, qualitative research dimensions, ethics in research and publication, and strategies for publishing in high-impact journals. The program concludes with a valedictory session, acknowledging participants' accomplishments and distributing certificates as a testament to their newfound knowledge in the art of writing research papers.</p>

Outcome of Activity	<p>A few outcomes for the FDP</p> <ol style="list-style-type: none">1. Enhanced Research Skills: Participants will gain a deeper understanding of research methodology, enabling them to conduct high-quality research with confidence.2. Improved Writing Proficiency: Through practical sessions and guidance on academic writing, participants will learn how to structure research papers effectively and cite sources accurately.3. Statistical Analysis Competence: Participants will acquire skills in statistical analysis, including selecting appropriate techniques and using software tools like SPSS Amos for data interpretation.4. Publication Strategies: Participants will develop strategies for publishing research articles in high-impact journals, expanding the reach and visibility of their work.5. Ethical Research Practices: Participants will be equipped with knowledge of ethical considerations in research and publication, ensuring integrity throughout the research process.
